

## **InPost nominates Cristina Berta Jones as new supervisory board member**

**Luxembourg, – 15 February 2021.** Inpost S.A. (“Inpost” or the “Company”) today announced that its Supervisory Board proposes Cristina Berta Jones for appointment to its Supervisory Board. The nomination will be placed on the agenda for the the Company’s Annual General Meeting on May 19, 2021.

“We are delighted to welcome Cristina as a new independent director to InPost’s Supervisory Board,” said Mark Robertshaw, Chairman of InPost. “She brings proven expertise and directly relevant experience across both the technology and e-commerce sectors. The Board very much looks forward to benefiting from her insight as InPost delivers on its vision to become Europe’s leading out-of-home automated solution for e-commerce.”

Cristina Berta Jones currently serves as a member of the leadership team of Picnic, an online grocery company based in the Netherlands, where she is focused on growth and international initiatives. From 2011 to 2018, she held a number of senior roles at Naspers, a global consumer internet company and one of the largest technology investors in the world. From 2015 to 2018 she served as Chief Operating Officer of Naspers’ B2C E-Commerce operations. From 2005 to 2011, Cristina worked at Nokia, where she held various sales and corporate development roles.

With the proposed nomination, InPost’s Supervisory Board will comprise 7 members.

### **About InPost S.A.**

InPost S.A (“InPost”) is the leading e-commerce enablement platform. Founded in 1999 by Rafal Brzoska in Poland, InPost provides delivery services through its network more than 12,000 APMs, including over 1,100 in UK, as well as to-door couriers and fulfilment services to e-commerce merchants. In 2020, InPost handled 249 million parcel deliveries through its APMs, working with over 26,000 merchants. Strategically positioned in the fast-growing e-commerce ecosystem, InPost benefits from supportive market trends which drives further APM adoption. APMs provide consumers with a lower cost, flexible, convenient, environmentally friendly and contactless delivery option. Through its APM delivery services, InPost is creating a greener solution for e-commerce, as locker delivery results in a reduction of CO2 emissions by two-thirds compared to to-door deliveries in urban areas and 90% in rural areas as well as significant reduction in congestion. In addition, APMs provide a more convenient solution to parcel delivery for consumers, allowing for 24/7 access without the need for consumers to remain at home. Highly efficient IT infrastructure and rapid adoption of new technology underpin InPost’s operations and growth. InPost’s mobile application ‘InPost Mobile’ is one of the most successful apps in Poland with 5.6 million active users
